REMARKS

Cegled.

25X1X

1. Several marching columns of Hungarian troops arrived in Cegled (Q 48/O 08) from the direction of Budapest about 20 January 1951. The first four columns numbered about 150 men each, wearing green service colors and armed with rifles, submachine guns and some light machine guns. The following two columns numbered about 110 men each, wearing dark green service colors and armed only with submachine guns. Together with the marching columns 35 to 40 trucks, covered with tarpaulins, arrived at the post. The troops were not quartered in barracks installations but in two large buildings, one of which was located on the main street leading toward the city center, a distance of about 500 meters from the railroad station, and the other one on a side street east of the first building. *

Pestszentloerinc.

2. In January 1951, a new barracks installation occupied by Hungarian troops was located on the southwest side of the road leading from Pestszentloerinc (Q 48/H 61) to Vecses (Q 48/H 61), about 800 meters west of the junction of this road with the Budapest-Szolnok (Q 48/O 37) railroad line. The installation had a street frontage of about 300 meters. Motor vehicles entering and leaving were observed there. **

Comment. The service colors indicate infantry and engineer units.

Comment. According to previous information, an artillery unit is stationed in Pestszentloerinc. See [REDACTED] 25X1A
